- 9: **EXTERNAL POWER-OFF PROTECTION:** If power supply is interrupted, clock function will keep time though the LED display will turn off and buttons will be unresponsive. Once powered is restored, the time will resume appropriately.

SAFETY PRECAUTIONS:

WARNING—Basic precautions should always be followed. Read before use.

1. Do not use on an aircraft or in a hospital.
2. Close supervision is necessary when the product is used near children.
3. Do not expose the device to any moisture.
4. Do not use the device in excess of its output rating. Overloaded outputs above rating may result in a risk of fire or injury.
5. Do not use the device if damaged or modified. Damaged or modified device may exhibit unpredictable behavior resulting in fire, explosion or risk of injury.
6. Do not disassemble. Seek assistance from a qualified service person.
7. Do not expose device to fire or extreme heat. Exposure may cause an explosion.
8. For servicing, seek qualified repair person using only identical replacement parts to ensure safety of the product is maintained.
9. Do not overcharge Phone. Unit may get hot with excessive use. Remove Phone when fully charged. Never use over 7 hours at a time.

****KEEP OUT OF REACH OF CHILDREN****

FCC Statement:

Device complies with part 15 of the FCC Rules. Operation is subject to following 2 conditions:
(1) device may not cause harmful interference,
(2) device must accept any interference

received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

WARNING
Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
