**MI Power
5000 mAh MagClick™
15W Wireless
Power Bank**

Instruction Manual

Whats Included:

- 1 x 5000 mAh Wireless Power Bank
- 1 x Type-C to Type-C Charging Cable

Functions:

1. ON/OFF Button
2. Type-C Input & Output Port
3. LED Indicators(5 indicators)
4. Wireless Charging Surface
5. Magnetic Surface

Instructions:

1. LED Indicators:

• Power ON/OFF Button

- Press once to check remaining power capacity.
- Double press to turn OFF the power bank.

• Indicator Lights:

- **White:** Each light represents 25% of total capacity.
- **Blue:** Indicates wireless charging is available. LED will Glow blue in standby mode and flashes blue during wireless charging.
- **Green:** Indicates fast charging is active and glows green during fast charging.

2. Charging the Power Bank:

- Fully charge the power bank before first use.
- Insert the Type-C tip of the included cable into a certified AC adapter or a computer/laptop with Type-C port.
- Insert the other Type-C tip of the included cable into Type-C Input Port (2).
- Charging will begin automatically.
- Use a Type-C charging cable (user-provided or included) for charging.
- The LED Indicator (3) will flash white during charging and remain solid white when fully charged.

3. Charging Devices with the Power Bank:

- Connect the charging cable to your device using the appropriate connector.
- Insert the Type-C end of the cable into the

Tech Specifications:

1. Capacity: 5000mAh/3.85V/19.25Wh
2. Type-C Input & Output:
DC 5V/3A, 9V/2.22A, 12V/1.67A (20W max.)
3. Wireless Output: 15W (max.)

power bank's Type-C port (2).

- The LED Indicator will illuminate white during charging.
- Disconnect the cable when your device is fully charged.

4. Wireless Charging:

- Press the Power Bank ON/OFF button (1) to activate the wireless charging function; the blue indicator will light up.
- Place your phone on the wireless charging surface (4).
- Charging starts automatically; the LED indicator will flash blue when charging.
- If fast charging is available, the blue and green indicators will alternate.

**** Note:** Fast charging cannot be used while charging more than one device simultaneously.

5. Wireless Charging with Magnetic Surface:

- If your wireless charging-compatible device contains magnets, it will attach to the magnetic surface (5) for better alignment and secure wireless charging. Compatible devices include iPhone 12/13/14/15/16 series.
- This item is also compatible with other non-magnetic devices, though the magnetic function will not work.

Safety Precautions:

WARNING-When using this product, basic precautions should always be followed:

1. Read all the instructions before use.
2. Charge the power bank fully before initial use. The unit's full performance is achieved only after 2 or 3 completed charge and discharge cycles.
3. To reduce the risk of injury, close supervision is necessary when the product is used near children.
4. Do not expose the device to moisture.
5. Do not use the device in excess of its output rating. Overload outputs above rating may result in a risk of fire or injury.
6. Do not use the device if damaged or modified.
7. Damaged or modified batteries may exhibit unpredictable behavior resulting in fire, explosion or risk of injury.
8. Do not disassemble the device. Take it to a qualified service person when service or repair is required. Incorrect reassembly may result in a risk of fire or injury.
9. Do not expose the device to fire or excessive temperature. Exposure to fire or temperatures above 212°F may cause explosion.
10. Have servicing performed by a qualified repair person using only identical replacement parts.
11. This will ensure that the safety of the product is maintained.
12. Do not overcharge Phone. Unit may get hot with excessive use. Remove Phone when it is fully charged. Never charge for more than 7 hours at a time.
13. Attachments on the back of your phone can impede the effectiveness of the wireless charger, and lead to overheating. Please remove attachments from the phone before charging on this device.
14. The strong magnetic fields of neodymium Magnets can damage items such as television, Computer monitors, credit cards, bank cards, Computers, diskettes and other data carriers, Video tapes, mechanical watches, hearing aid, loud speakers and VCRs. Pace-makers may be Damaged or switched to "test mode" in the presence of a strong magnetic force, if pacemaker or other electronical body implant is in use, keep a minimum of 3 feet distance.

FCC Statement:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

Warning:

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note:

This equipment has been tested and found to comply with the limits for a Class B digital device pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement:

The antennas used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located for operating in conjunction with any other antenna or transmitter.

CAN ICES-3 (B) / NMB-3 (B)

This Class B digital apparatus complies with Canadian ICES-003.

(Cet appareil numérique de la Classe B conforme à la norme NMB-003 du Canada).
