3-in-1 Power Fold 15W MagClick™ Wireless Charging Pads

Instruction Manual

Whats Included:

- 1 x Wireless Charging Pad
- 1 x Type-C to Type-C Cable

Functions:

1. Type-C Input Port
2. Wireless Charging Surface(Mobile Device)
3. Mobile Device Surface LED Indicator
4. iWatch Surface LED Indicator
5. Airpod Surface LED Indicator
6. Wireless Charging Surface(iWatch)
7. Wireless Charging Surface(Airpods)
8. Magnetic Surface

Tech Specifications:

1. Type-C Input: 5V 3A,9V 3A
2. Wireless Output(iPhone): Up to 15W Max
3. Wireless Output(Airpods): 3W
4. Wireless(iWatch) Output: 1.5W

Instructions:

1. Wireless Charging Mobile phones and other electronic devices:

- ** Please remove all the films on the gray silicone rings/strips before usage.
- Unfold the wireless charging pads.
- Using the included Type-C to Type-C charging cable, insert the Type-C port of the cable into a certified AC adapter and the Type-C into Type-C Input(1).
- To achieve better performance, quick-charge power adapter is recommended. (18W at least).
- All LED indicators will flash once when in standby phase.
- Place the wireless charging supported mobile device on the wireless charging surface(2).
- Phone will begin to charge automatically, LED indicator(2) will glow GREEN when device is charging.
- Once fully charged remove the device.
- ** *Note: When wireless charging, if the LED indicator flashes GREEN the device is either not a wireless charging device or there is an object between the device and charging surface interfering with the charging process.*

2. Wireless Charging iWatch:

- Besure the type-c cable is connected.
- Fold up the middle wireless charging Surface(6) and place the iWatch on the charging surface.
- Watch will begin to charge automatically, iWatch surface LED indicator(4) will glow RED when device is charging.
- Once fully charged remove the device.

3. Wireless Charging Airpods:

- Besure the type-c cable is connected.
- Place the airpods on the right wireless charging surface(7).
- Device will begin to charge automatically, Airpod surface LED indicator(5) will glow BLUE when device is charging.
- Once fully charged remove the device.

4. MagClick™ Wireless Charging Feature:

- If your wireless charging compatible device contains magnets, it will attach to the magnetic surface(8) for better alignment to secure wireless charging. Compatible devices are iPhone 12/13/14/15/16 and above series.
- This item is also compatible with other non-magnetic devices, the magnetic function just won't work.

Safety Precautions:

WARNING-When using this product, basic precautions should always be followed:

1. Read all the instructions before use.
2. To reduce the risk of injury, close supervision is necessary when the product is used near children.
3. Do not expose the device to moisture.
4. Do not use the device in excess of its output rating. Overload outputs above rating may result in a risk of fire or injury.
5. Do not use the device if damaged or modified.
6. Do not disassemble the device. Take it to a qualified service person when service or repair is required. Incorrect reassembly may result in a risk of fire or injury.
7. Do not expose the device to fire or excessive temperature. Exposure to fire or temperatures above 212°F may cause explosion.
8. Have servicing performed by a qualified repair person using only identical replacement parts. This will ensure that the safety of the product is maintained.
9. Do not overcharge Phone. Unit may get hot with excessive use. Remove Phone when it is fully charged. Never charge for more than 7 hours at a time.
10. Attachments on the back of your phone can impede the effectiveness of the wireless charger, and lead to overheating. Please remove attachments from the phone before charging on this device.
11. The strong magnetic fields of neodymium magnets can damage items such as television, computer monitors, credit cards, bank cards, computers, diskettes and other data carriers, video tapes, mechanical watches, hearing aids, loud speakers and VCRs. Pace-makers may be damaged or switched to "test mode" in the presence of a strong magnetic force, if pace-maker or other electronical body implant is in use, keep a minimum of 3 feet distance.

FCC Statement:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

Warning:

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note:

This equipment has been tested and found to comply with the limits for a Class B digital device pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there

is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement:

The antennas used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located for operating in conjunction with any other antenna or transmitter.
