

7143-71

Glow 3-in-1 15W MagClick™ Wireless Charging Stand

Instruction Manual

Whats Included:

- 1 x Wireless Charging Stand
- 1 x Type-C to Type-C Cable

Functions:

1. Rotating axis
2. Light Button
3. Night Light Base
4. Wireless Charging Surface(Mobile Device)
5. Wireless Charging Surface(TWS Earbuds)
6. Wireless Charging Surface(iWatch)
7. Type-C Input Port
8. Magnetic Surface

Instructions:

1. Connect the Wireless Charging Stand:

- Connect the provided power cable to a power source and to the Type-C Input port(7).
- To achieve better performance, 30W quick-charge power adapter is highly recommended.

2. Charging Your Phone:

- Place the wireless charging supported mobile phone on the wireless charging surface(4). The night light base(3) will pulse BLUE.
- If there is an issue with charging, the blue light will flash quickly.

3. Charging Your TWS Earbuds:

- Place your wireless charging-supported TWS (True Wireless Stereo) Earbuds on the charging surface(5). The night light base(3) will pulse GREEN.
- If there is an issue with charging, the green light will flash quickly.

4. Charging Your Phone and TWS Earbuds at the Same Time:

- When the phone and TWS Earbuds are both placed on their respective charging surfaces simultaneously, the night light base(3) will pulse BLUE and GREEN alternately.

Tech Specifications:

1. Type-C Input: 5V 2A ; 9V 3A
2. Wireless Output (Top): 15W Max
3. Wireless Output (Middle): 5W Max
4. Wireless Output (for Watch): 2.5W Max

- If there are issues with both charging areas, the night light base(3) will flash BLUE and GREEN quickly.
- If the TWS Earbuds charging surface(5) is not working properly, but the phone charging surface is working, the night light base(3) will be BLUE and pulse for 5 seconds, then switch to GREEN and flash for 2 seconds. This cycle will continue until this issue is resolved.

5. Charging Your iWatch:

- Pull up the iWatch holder(6) to horizontal level.
- Place your wireless charging-supported watch on the charging surface(6). The iWatch screen will display charging immediately.
- Please be noted that the iWatch stand may not be compatible with all smart watches.

6. Night Light Base:

- Press the light button(2) to turn the light on or off.
- The light color can be switched between WHITE and RGB by pressing the light button(2).

7. MagClick™ Wireless Charging Feature:

- If your wireless charging compatible device contains magnets, it will attach to the magnetic surface(8) for better alignment to secure wireless charging.
- The Wireless Charging Surface(4) can be pulling up to certain angle for magnetic-compatible phone holding.
- Compatible devices are iPhone 12/13/14/15 series so far.
- This item is also compatible with other non-magnetic devices, the magnetic function just won't work.

Safety Precautions:

WARNING-When using this product, basic precautions should always be followed:

1. Read all the instructions before use.
2. To reduce the risk of injury, close supervision is necessary when the product is used near children.
3. Do not expose the device to moisture. Do not use the device in excess of its output rating. Overload outputs above rating may result in a risk of fire or injury.
4. Do not use the device if damaged or modified.
5. Damaged or modified batteries may exhibit unpredictable behavior resulting in fire, explosion or risk of injury.
6. Do not disassemble the device. Take it to a qualified service person when service or repair is required. Incorrect reassembly may result in a risk of fire or injury.
7. Do not expose the device to fire or excessive temperature. Exposure to fire or temperatures above 212°F may cause explosion.
8. Have servicing performed by a qualified repair person using only identical replacement parts.
9. This will ensure that the safety of the product is maintained.
10. Do not overcharge Phone. Unit may get hot with excessive use. Remove Phone when it is fully charged. Never charge for more than 7 hours at a time.
11. Attachments on the back of your phone can impede the effectiveness of the wireless charger, and lead to overheating. Please remove attachments from the phone before charging on this device.
12. The strong magnetic fields of neodymium Magnets can damage items such as television, Computer monitors, credit cards, bank cards, Computers, diskettes and other data carriers, Video tapes, mechanical watches, hearing aid, loud speakers and VCRs. Pace-makers may be Damaged or switched to "test mode" in the presence of a strong magnetic force, if pacemaker or other electronic body implant is in use, keep a minimum of 3 feet distance.

FCC Statement:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

Warning:

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note:

This equipment has been tested and found to comply with the limits for a Class B digital device pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement:

The antennas used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located for operating in conjunction with any Other antenna or transmitter.
