

SM-2860

Magclick™ Slim 4k Power Bank

Instruction Manual

Whats Included:

- 1 x 4000mAh Magclick Wireless Power Bank
- 1 x 30cm TPE Type-C to Type-C charging cable

Functions:

1. Type-C Input/Output Port
2. LED indicators
3. Wireless Charging LED
4. Power Button
5. Magnetic Wireless Charging Surface

Tech Specifications:

1. Capacity: 4000mAh/3.7V/14.8Wh
2. Type-C Input/Output: DC 5V/2.1A
3. Wireless Output for Phone: 5W Max

Instructions:

1. Charging the Power Bank:

- Be sure the power bank is fully charged before usage.
- Connect the included USB-C cable to a certified AC adapter, plug the other end into the Type-C port(1) on the power bank.
- The LED indicator(2) will flash WHITE when the device is charging and will stop once fully charged.
- Once the power bank is fully charged, remove the device from the power source.

2. Cable Charging Your Mobile Device:

- Press the power button(4) to turn ON the power bank, then connect your device to the Type-C port(1) using the appropriate cable. Charging will begin automatically.
- LED indicators will glow WHITE while charging.
- The LED indicators(2) will turn off once the power bank is depleted.
- Disconnect your device once it is fully charged.
- The power bank will automatically shut off after 32 seconds of inactivity, or you can press and hold the power button(4) to turn it OFF manually.

3. Wireless Charging Devices:

- Press the power button(4) once to turn ON the power bank. The LED indicator will flash BLUE three times, then stay on.
- Place your wireless charging-enabled device on the magnetic charging surface. Charging begins immediately and the wireless charging LED(3) will pulse BLUE.
- Once fully charged, remove the device.

4. Wireless Charging with Magnetic Surface:

- If your phone supports MagSafe, it will automatically align with the magnetic charging surface(5) for a secure connection.
 - The magnetic alignment feature works with MagSafe-compatible phones. Other wireless charging-enabled devices are also supported, but will not magnetically align.
- ** Note:** If the LED flashes BLUE during wireless charging, your device may not support wireless charging, or something between the device and the charging surface is interfering with the connection. Remove any case or attachment and try again.

Safety Precautions:

WARNING-When using this product, basic precautions should always be followed:

1. Read all the instructions before use.
2. Charge the power bank fully before initial use. The unit's full performance is achieved only after 2 or 3 completed charge and discharge cycles.
3. To reduce the risk of injury, close supervision is necessary when the product is used near children.
4. Do not expose the device to moisture.
5. Do not use the device in excess of its output rating. Overload outputs above rating may result in a risk of fire or injury.
6. Do not use the device if damaged or modified.
7. Damaged or modified batteries may exhibit unpredictable behavior resulting in fire, explosion or risk of injury.
8. Do not disassemble the device. Take it to a qualified service person when service or repair is required. Incorrect reassembly may result in a risk of fire or injury.
9. Do not expose the device to fire or excessive temperature. Exposure to fire or temperatures above 212°F may cause explosion.
10. Have servicing performed by a qualified repair person using only identical replacement parts. This will ensure that the safety of the product is maintained.
11. Do not overcharge Phone. Unit may get hot with excessive use. Remove Phone when it is fully charged. Never charge for more than 7 hours at a time.
12. Attachments on the back of your phone can impede the effectiveness of the wireless charger, and lead to overheating. Please remove attachments from the phone before charging on this device.
13. The strong magnetic fields of neodymium Magnets can damage items such as television, Computer monitors, credit cards, bank cards, Computers, diskettes and other data carriers, Video tapes, mechanical watches, hearing aid, loud speakers and VCRs. Pace-makers may be Damaged or switched to "test mode" in the presence of a strong magnetic force, if pacemaker or other electronical body implant is in use, keep a minimum of 3 feet distance.

FCC Statement:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

Warning:

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note:

This equipment has been tested and found to comply with the limits for a Class B digital device pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there

is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

CAN ICES-3 (B) / NMB-3 (B)
