Backpack

Day Owl (with your help) is building the first completely circular bag company. Day Owl builds its products from recycled landfill-based materials, repairing and refurbishing them to keep them in circulation for multiple owners. When they're used up, Day Owl makes sure they become input materials for new bags.

Certified

Corporation

Day Owl is committed to creating positive impact, globally and locally.

As a Certified B Corporation, Day Owl meets the highest standards of social and environmental performance.

EVERY BAG COUNTS,
yet countless bags get thrown into landfills every year.
