Why we love BioLite

BioLite believes that advanced technologies, built on sustainable business practices, have the power to change the world. Its unique parallel-innovation business model pairs the needs of families living in energy poverty with the passions of outdoor enthusiasts.

Purpose Partner

BioLite a Climate Neutral Certified brand on a mission to empower people and protect our planet through access to renewable energy.

Brand That Gives Back

BioLite has provided sustainable energy solutions to more than 5.5 million individuals in 31 countries throughout Africa and Asia.

Why choose BioLite

BioLite creates durable products that harness surrounding energy to cook, charge and light your life off-grid.

Innovative Technology

BioLite uses patented technology to create unique, high-end products that can convert waste heat into energy, minimize the amount of smoke your fire pit products, or sets the mood for your outdoor adventure with nature-inspired LED lighting.

Gift That Gives Back

When you purchase a BioLite product, you support the brand's work delivering renewable energy solutions to households living beyond the grid. This means cooking fires without smoke, solar panels that keep families charged, and lighting that extends the day when the sun goes down.

Certified Climate Neutral Gear

Being Climate Neutral Certified means that BioLite measures, reduces, and offsets all the greenhouse gases emitted producing their products.
